

A guide to:

# Getting on the Hive app

Tip! If you have a Voyage Care email and already have access to Hive then you can use your normal log in details. Click SSO to log in.

We've had lots of requests about people accessing Hive from their phones. Every member of staff, including those that don't have a Voyage Care email account now have access to Hive. Here's how to get on the app if you've never had access to the platform before:

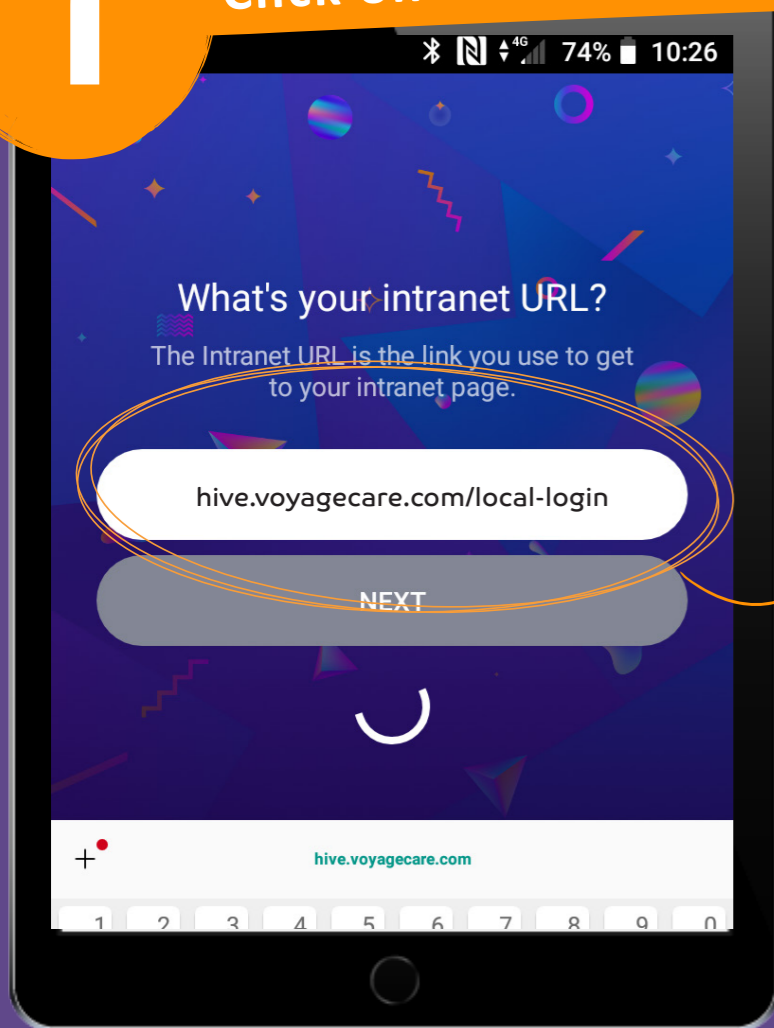

## Downloading the app

When you are using your personal phone you need to download the app.

The app you are looking for in the app store is called Interact.

Once you have downloaded the app you can follow these instructions to log in to Hive.

## 1 Click on the Interact app

To log into Hive, you need to type in the url.

This is:

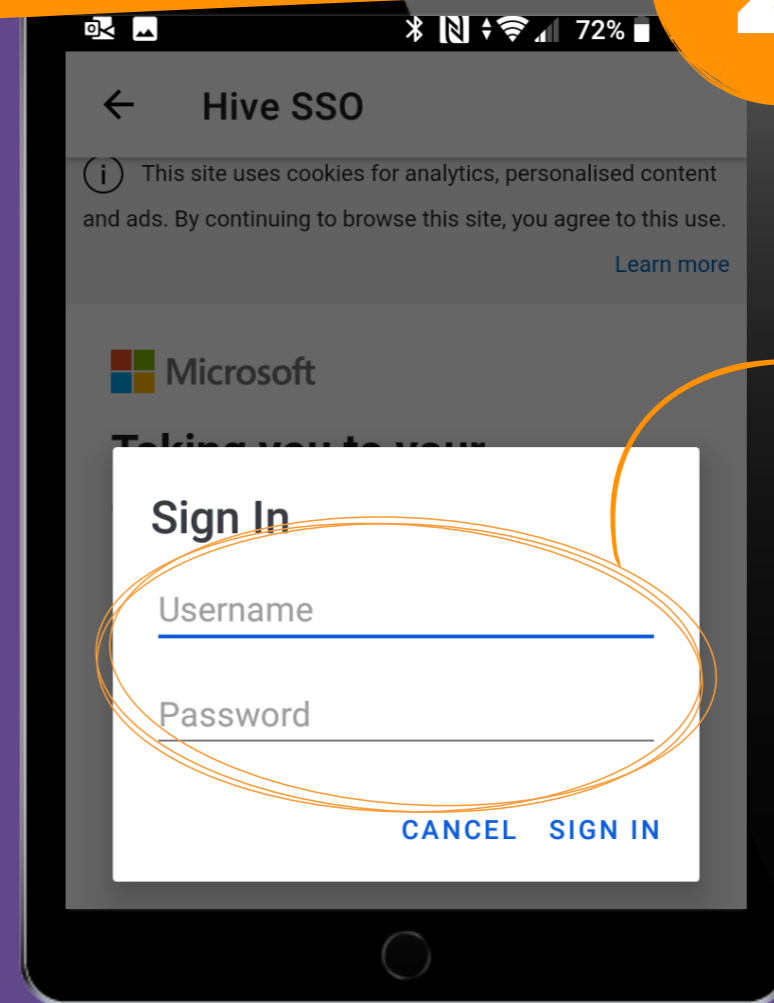

**hive.voyagecare.com/local-login**

If you have a CellTrak phone then Interact is already installed on your phone and looks like this

## Username and password

# 2

Your username is your first name and last name and your full year of birth (no spaces)

e.g. JoeBloggs1994

Your password will be unique to you. You need to add your employee ID number (payroll number) to the end of the word Voyage (with a capital V)

e.g. Voyage00000

Your employee ID number will be between 2-5 numbers

Tip! Your employee ID number is on your payslip

If you have any problems you can contact the communications team:  
**communications@voyagecare.com**
