

Esmer House, Mansfield

Prader-Willi syndrome care home

About Esmer House

Esmer House is a Prader-Willi syndrome residential care home, providing support to meet the needs of people living with the condition.

The specialist home has six bedrooms across two floors and 24-hour support. Residents can enjoy the large lounge area and dining area, as well as a spacious back garden.

Esmer house is located in a residential area. It is in short walking distance from a leisure centre where residents can take part in fitness classes, badminton, tennis and more.

Residents can also take advantage of nearby Sherwood Forest and amenities in Mansfield, such as a cinema, trampolining centre and snooker hall. Visiting the town of Mansfield is just a 15 minute bus journey away.

Although there is no cure for Prader-Willi syndrome, our goal is to help people to lead a healthy, fulfilling life with support from people who understand their condition.

Our vacancies

There are currently two room vacancies at Esmer House, that would be ideal for somebody aged between 20-40, looking for a modern home with friendly and sociable housemates.

We have one vacancy on the ground floor, which is a spacious room at the front of the home. The room has access to the two shared bathrooms on the ground floor, one of which is a wetroom shower.

Our second vacancy is a double room on the first floor. This is a quiet room tucked away from the rest of the home and looks over the back garden with access to a shared bathroom.

Esmer House is a friendly and homely service. Our existing residents enjoy spending their time outside in the hotub, or reclining back on the sofa to watch movies on the huge 78 inch TV! The service also has a heated cabin in the back garden, which is often used for our games nights or used as an additional quiet space when needed.

We're keeping you safe

Our main priority at Voyage Care is to help you lead the life you want, in a secure and safe way. Throughout the COVID-19 pandemic, our team is constantly updating our approach based on the latest Government policies and procedures, with steps in place to reduce the risk of transmission.

Some of our COVID safe actions include:

- Weekly COVID-19 testing for all our support staff.
- Maintaining service-level plans to reduce the risk of infection spreading and manage any outbreaks.
- Keeping a focus on infection control and hygiene protocols, including a robust supply of Personal Protective Equipment (PPE).
- Enabling a convenient virtual assessment process. This includes the use of online meetings, tours and chats with the team.
- Using technology to keep you in touch with your loved ones when socially distanced visits are not possible. This includes virtual picnics, movie nights and quizzes.
- Focusing on your mental well-being throughout this difficult time through home-based activities – some of our services have even created their own pop-up pubs!

During these unprecedented times, we understand how difficult and confusing it can be. We're here to support you by sharing reliable and honest information, keeping you informed of our response and shining a light on all the positive things happening in social care.
