BRAIN INJURY REHAB by

voyagecare

Cedar Road

At Cedar Road, we support up to nine residents with a brain injury. We provide high quality support to enable the residents to develop and maintain physical and cognitive skills.

The support we provide is based around rehabilitation techniques that increase independence, and progress is monitored regularly using Goal Attainment Scaling. Our well-trained team at Cedar Road are supported by a neuro-psychologist to implement and review therapy programmes tailored to each individual.

The service has been carefully designed to meet the specialist needs of our residents, whilst still providing a warm environment. The nine bedrooms all have en-suite facilities and ceiling tracking is available where required. There is a large garden and a number of spacious communal areas, which give our residents the opportunity to socialise, spend time alone or take part in activities.

Joy Parkes
Service Manager

"It is a privilege to be the registered manager of Cedar Road.

The service is warm and welcoming and the staff team work hard to ensure the people here are supported whilst they are completing their rehab journeys.

It is a pleasure to be part of the Cedar Road team as we continue to grow."

Our commitment to quality

We're committed to providing person-centred, high quality care and support – demonstrated by our sector-leading 95% Good or Outstanding* quality ratings by the Care Quality Commission.

Our highly trained, specialist teams use an individualised approach to supporting those with a brain injury. Support is based around each persons' unique abilities, goals and preferences.

All 19 of our specialist brain injury rehabilitation services have been approved by Headway, the brain injury association, providing further assurance that our support is of the highest standard.

**Data accurate as of March 2022*

One person told us about the home in comparison to others they'd lived in, "This is by far the best." Another person told us, "The staff here are brilliant. I definitely feel safe."
